Follow these steps to get an estimate!

Step 1. Locate a pencil, measuring tape & ruler. Using the space below, roughly draw the shape of your countertop space.

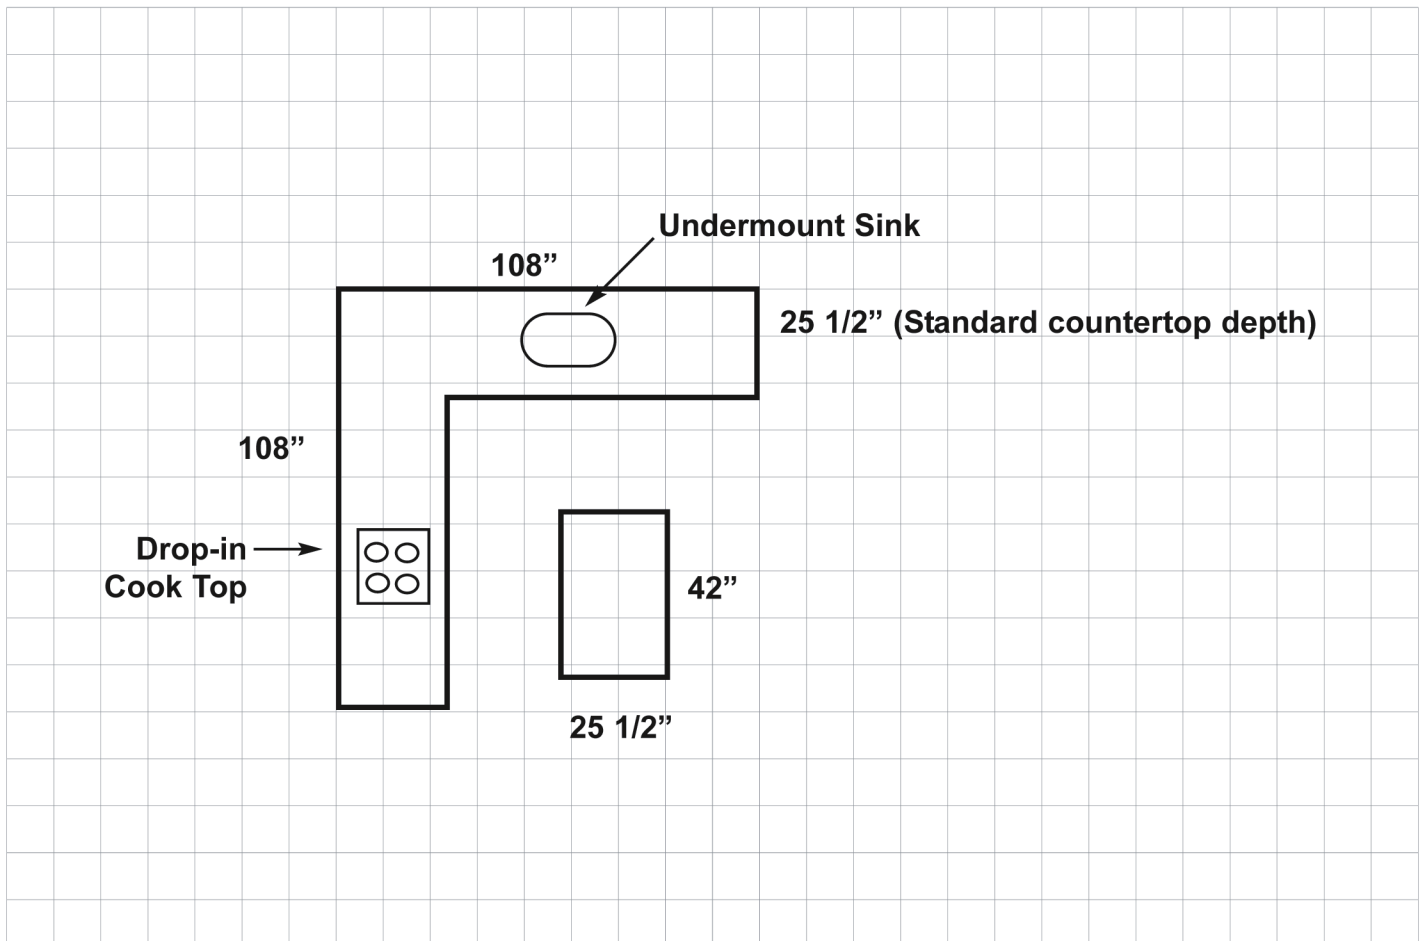

Step 2. Using your tape, measure in inches the dimension of all the counter space you would like surfaced with stone. Put the measurement on your rough drawing.

Please indicate the approximate location of any required cut-outs for undermount or drop-in sinks, drop-in cooktops etc.

Step 3. For an estimate, bring or fax your drawing to our showroom and we will be happy to quote your project. If you would like us to go to your place to complete a measurement, just call us to make an appointment.

The final purchase price of your counter will be determined after a complete on-site measurement of your counter space.
